

JOB DESCRIPTION –

INFINIUM
CONNECTED TECHNOLOGY

ROLE OVERVIEW	
Title:	Technical Field Engineer
Department:	Field, Operations
Reporting to: (Line Manager, Location)	Programme Manager (Oxfordshire, Wiltshire, Berkshire or Hampshire)
Key Relationships:	Field Engineers, Service Desk Engineers, Procurement Clerk, Account Managers
Hours:	40 hours per week (Mon – Fri)
Number of Direct Reports:	0
Salary:	20k-25k + overtime and on-call allowance, company van, mobile phone and laptop
Job summary:	<p>An opportunity exists for a Technical Field Engineer, based from home in the South of England – preferably in Oxfordshire, Wiltshire, Berkshire or Hampshire. A clean driving licence and the ability to work away from home is essential. A good knowledge of networking, data cabling and IT Support in a Windows environment are absolutely necessary.</p> <p>Previous experience of field roles and WiFi technologies would be an advantage.</p>
Job Requirements	<p>The successful candidate will be:</p> <ul style="list-style-type: none"> - Highly motivated, articulate and have great interpersonal skills - Conscientious, responsible attitude and a demonstrable pride in completing work to an excellent standard - To install and support outdoor WiFi networks - Be happy to work outdoors, comfortable working at sensible heights and proficient in using small handheld tools e.g. drills and drivers
Other details:	<p>Uniform, tools and a fully quipped company vehicle will be provided. The normal working week is Monday – Friday, although flexibility for some scheduled weekend work will be required. All field engineers also form part of an on-call rota, providing weekend cover for emergency, high priority issues. Typically, each engineer covers one weekend in six.</p> <p>For efficiency, we aim for engineers to work in their own area. However, as a UK-wide company, travel to other areas is inevitable at times, and overnight stays will be required. We cover normal expenses and overtime is payable when projects demand.</p>
Ad-hoc tasks:	From time to time as deemed appropriate, ad hoc tasks will be assigned. These should be completed to the agreed standard and timescale.
